HOW TO CHANGE THE BACKGROUND BITMAP

DISCLAIMER

FURTHER INFORMATION

Question:

Can I change my background image?

Answer:

The background image displayed in Triumph Accounting is a windows bitmap file. If you wish to change this you should create a bitmap image which is suitable for tiling.

NB: While windows can support very large bitmaps the size of the image you create does impact on performance including loading, repainting the screen and consuming system resources. Therefore the recommended size for this bitmap file should be less than 20k.

Warning

Please note that this is an unsupported feature of Triumph Accounting and consequently any upgrade/update of the workstation install may replace the image you have created. Therefore to avoid losing such changes it is recommended that a copy of your newly created bitmap is made and kept elsewhere so it can be copied in again after future workstation upgrade/updates.

Therefore to avoid losing such changes it is recommended that a copy of your newly created bitmap is made and kept elsewhere so it can be copied in again after future workstation upgrade/updates.

ALL COMPANIES – ONE TERMINAL

Once the bitmap file has been created it should be saved as tabkgrnd.bmp and replace the existing file found in the Visual DataFlex bitmaps folder. E.g.
C:\Program Files\VDF7\Bitmaps

If all users are to view the same image each workstation must be updated with the same image.

SINGLE COMPANY - ALL USERS

This is a very useful tool where there are multiple companies in use or where there is a multiple company and backup companies available for selection from the company menu. Each company may then have it's own background reminding users which company they are working on.

Store the new background image in the folder for that company on the server.

E.g [\\server\Triumph\dat.](#)
