

How can I move between Tabs in Triumph without using a mouse?

A lot of Windows packages utilise the Alt key in addition to a letter to move around the screen without the aid of a mouse. This can create a problem as multiple menu options may begin with the same letter etc.

Triumph Accounting has allowed a quick jump facility in their screens with multiple tabs.

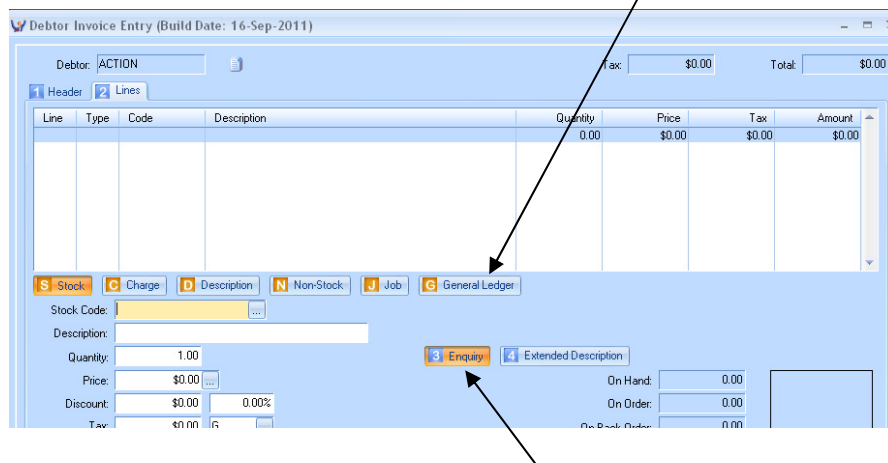

You will notice a numbered square in the corner of each tab.

To switch between tabs hold your CTRL key down and press the number of the tab you wish to jump to.

In transaction screens the tabs are defined by letters.

To switch between tabs hold your ALT key down and press the letter of the tab you wish to jump to

or alternatively hold your CTRL key down and press the number of the tab you wish to jump to.
