Fast report creation. Better decisions.Use Crystal Reports to quickly and easily produce interactive views of business data for improved insight and better decisions.Crystal Decisions software integrates all the basics of business intelligence – ad hoc query, reporting and multi-dimensional OLAP into a proven enterprise reporting and information management system which is scalable to tens of thousands of users.

This software allows users of all skill levels to access, analyse and report valuable information from virtually any data source in the organisation, and then share that information with anyone in the enterprise who needs it.A world-standard for high-productivity reporting, Crystal Reports lets you transform almost any data into interactive content, integrate it into .NET, Java and COM applications and efficiently share it via portals, Microsoft Office documents and wireless devices.

Whether it's the CEO looking for the quarter-end figures, the system administrator wanting to report off Microsoft BackOffice data, or anyone else in your organisation who needs better information, Crystal provides all the tools you'll need.

Launched in October 2016, Definitiv is a cloud-based people management platform designed specifically for Australian companies. We support over 27,000 users, service over 170 companies and process over $1 billion in payments annually.

The Definitiv platform takes care of all your people needs with the following features:

- Onboarding
- Employee Hub & Mobile App
- Employee Compliance
- Rostering
- TimeClock
- Time and Attendance
- Award Engine
- Payroll
- Superannuation
- Reporting

Built for people who employ people, it has always been our mission to develop a payroll and HR platform with user experience in mind. Therefore, we have made a product that offers greater convenience, flexibility and value for our users.

Infor F9

F9 is a powerful financial reporting and analysis tool which is specifically designed to enhance any accounting systems' General Ledger Report Writer. F9 integrates the data from your accounting software with Excel to create a powerful platform for producing custom financial reports and executive information systems. If you know MS Excel you can write F9 reports.

MYOB Advanced

stratus
smart software solutions

MYOB Exo

Stratus is WA's leading software solution provider for **MYOB EXO** Business Suite and cloud solution **MYOB Advanced** and are a recognised industry leader for ERP knowledge, client focus and service provision since 2005.

MYOB EXO Business & MYOB Advanced ERP provides your business with a unified view of the internal and external factors to give you direct access to the 'big picture' information needed to make critical business decisions whilst allowing a deeper view of individual line processes and providing a clear understanding of what's driving your business.

Stratus's team encompasses skills in accounting, business management, SQL engineering, development & customisation and information technology and are the only WA MYOB EXO partner to provide a dedicated local Support and Consultancy team, training and regular system health checks. This ensures that your investment in your business software solution meets the needs of your business both now and in to the future.

Stratus believes in building both software solutions and long term client relationships – we understand that the WA market is unique and our goal of helping your business achieve – be it growth, stability, opportunities and success – is important to us.

sage WageEasy

Wage Easy Payroll is a software solution specially designed for Australian employment conditions - intuitive and easy-to-use. Our software has the only true across industry award interpreter that prepares the pay slip from a time sheet in seconds. It is easy to use and the operator no longer requires detailed knowledge of complex awards, contracts or employment agreements

Triumph is the versatile, cost-effective entry-level ERP software solution for Australian companies. Triumph ERP software enables you to take control and manage all business processes within your organisation, eliminating all the messy spreadsheets and add-ons. Its comprehensive, fully integrated, and flexible design provide the best foundation for you to grow your business. Triumph ERP is the ultimate next step for businesses that have outgrown software such as Xero, MYOB, and QuickBooks. As an entry-level Enterprise Resource Planning (ERP) software, Triumph ERP doesn't just handle the accounting and bookkeeping functions; it takes a whole-of-enterprise approach and helps to monitor, control and automate processes within a business. Go beyond basic bookkeeping and discover a greater depth of detail and functionality with Triumph ERP Software.

Xero is a complete suite of applications for seamlessly managing money and back-end operations. Now small businesses can enjoy total control over their finances anytime, anywhere from virtually any internet-connected device. Xero is a simple, smart and secure solution for streamlining the accounting process.
